

INDUSTRIE 4.0 AWARD 2021: WANTED! DIGITALISATION PROJECTS FROM INDUSTRY

“...and the winner is ...” - under this motto, champions and awards are the focus of our current newsletter.

On one hand, we would like to put Industry 4.0 frontrunners in the spotlight. For the “Industrie 4.0 Award 2021”, we are now looking for exciting winning projects from the real world - strengthened with a new jury and website.

On the other hand, we are pleased to receive three prestigious awards. We are represented in the study “Best Consultants” by brand eins as well as in the magazine Focus Business as “TOP Consultant”. A position in the ranking “Best Consultants in Switzerland 2021” by the magazine Finanz und Wirtschaft makes the triple perfect.

We hope you enjoy reading!

APPLICATION START: INDUSTRIE 4.0 AWARD 2021

Since 2013, ROI-EFESO and the trade journal “PRODUKTION” have been honouring digitalisation champions in industry with the “Industrie 4.0 Award”. This year, we are again looking for forward-looking and successfully implemented digital projects from the Smart Factory, Smart Supply Chain Management or those in which Smart Products & Services are used.

If you have implemented an Industry 4.0 solution - whether area-wide or as a proof of concept - you are qualified to take part in the competition. Learn more about the application process on our website.

BEST CONSULTANTS 2021

With a “triple” of awards from renowned business magazines, ROI-EFESO once again positions itself among the top management consultancies in German-speaking countries in 2021.

For the seventh time in a row, we are pleased to be ranked as “Best Consultant” in the market survey of the same name by brand eins, published by the magazine in cooperation with Statista.

At the same time, we are directly present in the first edition of the ranking “Top Consultants” of the business magazine Focus Business, which selects the best consultants from 38 specialist areas in cooperation with the independent research institute FactField GmbH. ROI-EFESO is honoured here in the category “Research & Development”.

Also in March, we received the seal of quality “Best Consultant in Switzerland”, with which the magazine Finanz und Wirtschaft, in cooperation with Bilan and Statista, annually awards the best consulting firms in the country. Consulting firms from 12 sectors and 14 fields of work are evaluated.

The ROI-EFESO team would like to thank all those involved who made this triple possible!
