

YOU KNOW SEVEN TYPES OF WASTE?

Instead of complex content, you prefer to develop excellent products and network machines in the IoT? Then you should join our team.

(SENIOR) CONSULTANT / PROJECT MANAGER (F/M/D)

WITH FOCUS ON PRODUCT DEVELOPMENT, LEAN DEVELOPMENT AND SMART PRODUCTS

With more than 3,000 successful projects, we are the leading experts for Operational Excellence & Industry 4.0. As part of the EFESO Group with around 500 employees, we are one of the leading management consulting companies in Europe. For us, being an excellent employer means more than performance-based compensation and comprehensive social benefits. We support our employees in all phases both in their day-to-day work and in their long-term career planning.

WE OFFER

- › Flexible career options across departments and countries in a dynamic, global consulting environment with more than 30 locations
- › Practice-oriented onboarding, regular training and development measures tailored to your needs
- › A steep learning curve through varied tasks and projects with a high level of personal responsibility
- › A distinctive team culture with numerous employee offerings, such as shared lunches, employee parties or free physiotherapeutic massages in the office

YOUR PROFILE

- › Very good degree in (industrial) engineering
- › Several years of professional experience in management consulting or the industry environment with industry focus on automotive, plant and mechanical engineering or medical technology
- › Sound knowledge of development strategies, lean development principles, innovation and product development processes
- › Knowledge in the area of digitization of the product development process as well as smart product concepts
- › High analytical, methodical and conceptual skills as well as proven implementation competence
- › Convincing and professional appearance as well as distinct ability to work in a team
- › High willingness to travel in your home country and abroad
- › Interest in individual further training / development opportunities

YOUR TASKS

- › Interdisciplinary project work with well-known medium-sized and corporate customers
- › Independent project management for the design and implementation of digitized maintenance concepts
- › Teamwork oriented towards competence, experience and humanity
- › Active participation in internal knowledge management

We look forward to receiving your application at jobs@roi.de, stating your availability and salary expectations. Your contact person: Ms. Carolin Stürzl.
