

When it comes to value stream design, are you thinking beyond time horizons and national borders? Then you should join our team.

(SENIOR) CONSULTANT / PROJECT MANAGER (F/M/D) WITH FOCUS ON LEAN PRODUCTION AND GLOBAL MANUFACTURING FOOTPRINT

With more than 3,000 successful projects, we are the leading experts for Operational Excellence & Industry 4.0. As part of the EFESO Group with around 500 employees, we are one of the leading management consulting companies in Europe. For us, being an excellent employer means more than performance-based compensation and comprehensive social benefits. We support our employees in all phases both in their day-to-day work and in their long-term career planning.

WE OFFER

- › Flexible career options across departments and countries in a dynamic, global consulting environment with more than 30 locations
- › Practice-oriented onboarding, regular training and development measures tailored to your needs
- › A steep learning curve through varied tasks and projects with a high level of personal responsibility
- › A distinctive team culture with numerous employee offerings, such as shared lunches, employee parties or free physiotherapeutic massages in the office

YOUR PROFILE

- › Successfully completed studies as an (industrial) engineer
- › Several years of professional experience in management consulting or the industry environment with industry focus on automotive, plant and mechanical engineering or industrial goods
- › Profound knowledge in the development and implementation of lean processes across the entire value chain in manufacturing companies
- › Expertise in the realization of best-practice assembly and logistics concepts as well as with value stream designs
- › High analytical, methodical and conceptual skills
- › Convincing and professional appearance as well as distinct ability to work in a team
- › High willingness to travel in your home country and abroad
- › Interest in individual training and development opportunities
- › Knowledge in the area of Industry 4.0 / digitization

YOUR TASKS

- › Interdisciplinary project work with well-known medium-sized and corporate customers
- › Independent project management for the design and implementation of digitized maintenance concepts
- › Teamwork oriented towards competence, experience and humanity
- › Active participation in internal knowledge management
