

COMMUNICATION WITH CHATBOTS AS CONFIDENTLY AS WITH CUSTOMERS?

Do you prefer to design lean manufacturing processes with machine learning, 3D printing or predictive analytics? Then you should join our team.

SENIOR CONSULTANT / MANAGER / PROJECT MANAGER (F/M/D) WITH FOCUS ON INDUSTRY 4.0 / IOT, SMART FACTORY AND DIGITIZATION

With more than 3,000 successful projects, we are the leading experts for Operational Excellence & Industry 4.0. As part of the EFESO Group with around 500 employees, we are one of the leading management consulting companies in Europe. For us, being an excellent employer means more than performance-based compensation and comprehensive social benefits. We support our employees in all phases both in their day-to-day work and in their long-term career planning.

WE OFFER

- › Flexible career options across departments and countries in a dynamic, global consulting environment with more than 30 locations
- › Practice-oriented onboarding, regular training and development measures tailored to your needs
- › A steep learning curve through varied tasks and projects with a high level of personal responsibility
- › A distinctive team culture with numerous employee offerings, such as shared lunches, employee parties or free physiotherapeutic massages in the office

YOUR PROFILE

- › You have successfully completed your studies as an (industrial) engineer
- › Several years of professional experience in management consulting or the industry environment
- › Profound knowledge in Lean Production, especially in the introduction and redesign of manufacturing systems and Operational Excellence
- › Profound knowledge in the area of digitization of processes in the field of manufacturing, logistics, maintenance and quality / Smart Factory as well as IoT architectures
- › Strong analytical, methodological and conceptual skills as well as proven implementation expertise
- › Convincing and professional appearance as well as distinctive ability to work in a team
- › High willingness to travel in your home country and abroad
- › Interest in individual training / development opportunities

YOUR TASKS

- › Interdisciplinary project work with well-known medium-sized and corporate customers
- › Independent project management for the design and implementation of digitized maintenance concepts
- › Teamwork oriented towards competence, experience and humanity
- › Active participation in internal knowledge management

We look forward to receiving your application at jobs@roi.de, stating your availability and salary expectations. Your contact person: Ms. Carolin Stürzl.
