

UTILIZING IMPROVEMENT OPPORTUNITIES

Dear Ladies and Gentlemen,

Achieving excellent processes – and then become even better? More than 160 of our customers worldwide are already successfully pursuing this course.

To do so, they are realizing our World Class Operations Management approach (WCOM™). The methodology is based on more than 40 years of Operational Excellence (OPEX) project experience in international industry.

Incidentally, the principle of continuous improvement also applies to the approach itself: With WCOM 4.0, we now combine WCOM and digitalization in one integrated program. We have compiled the results and case studies for you in this issue of our newsletter.

Best regards
Your team from ROI-EFESO

WCOM 4.0 BEST PRACTICE AT ARMACELL

How can WCOM and digital transformation be combined? Find out from our new video how Armacell implements the goals of a plant with auditable results.

NEXT GEN OPEX IN THE COMPANYYN

Use AI technologies and other measures to take Operational Excellence (OPEX) programs to a new level of performance. With our "Next Gen OPEX" approach, you can realign your production network and strengthen the resilience of your value chains.

REALIZING ZERO-LOSS WITH WCOM

With ROI-EFESO's WCOM approach, a global market leader in the packaging industry is achieving zero-loss targets. Read our case study to find out how waste was halved in 24 plants around the world – and productivity increased by 30%.
