GOOD ENOUGH IS NOT ENOUGH

Emerging Stronger from Phases of Transformation

In recent years, many industrial companies have consistently worked on efficiency, cost structures, and process quality. However, merely consolidating existing strengths - settling for «good enough» - does not ensure long-term competitiveness. The challenge now is to translate operational improvements into future-oriented transformation.

In this issue of our newsletter, we have compiled key approaches to help you manage transformation phases within your company more effectively. We wish you an informative and inspiring read.

Best regards
Your team from EFESO

FUTURE READINESS: AUTOMOTIVE PERSPECTIVES

Leverage operational excellence as a powerful engine for peak performance, efficiency, and profitability. Our new industry paper and our "Cockpit Talk" with the trade media "Automobilwoche" demonstrate how transformation in the automotive industry becomes a driver of growth.
